gives for its price

Oakland has made it easy for you to compare features. In fact, Oakland has made the comparisons itself, tabulating the results in chart form so that you can see at a glance what you get in the Oakland All-American Six as well as what you get in twenty other cars of medium price.

Before you buy any car within \$300 of Oakland's price, be sure to come in and see the complete results of these comparisons. And when you have seen them, we will clinch the proof of Oakland superiority with a demonstration-convincing you beyond any question that this is America's finest medium-priced automobile.
